Order of the Court

23-12275

ORDER:

Sadik Baxter's motion to expand the certificate of appealability is GRANTED IN PART on the following issues:

- (1) Whether the district court erred in denying Baxter's claim that trial counsel was ineffective for failing to advise him that, by pleading guilty to the burglary charges, he conceded the only contestable elements of the felony murder charges?
- (2) Whether the district court erred in denying Baxter's claim that trial counsel was ineffective for failing to file a motion to suppress the video recording of his post-arrest statement to police?

The motion is DENIED IN PART as to the remaining issues.
